## 2019 HISS Syllabus Human Development

Professor: **Dr. J. Sunshine Cowan**  
E-mail: jcowan1@uco.edu  
Home Univ.: University of Central Oklahoma  
Dept.: Department of Kinesiology & Health Studies

Description: The course will examine human growth and development across the lifespan with emphasis upon normal growth and milestones achieved in the physical, cognitive, social, and emotional systems.

Upon completion of the course, successful students will be able to:

- Objective:
- Describe the physiological, environmental, psychological, and metaphysical determinants of life span development.
  - Analyze early speech production as well as the social and personality development of children and adolescents, including intervention plans for success.
  - Compare demographics of old age to middle adulthood, early adulthood, childhood, and infancy.
  - Evaluate the health resources available to specific population groups.
  - Describe the process of conception, gestation, and birth.
  - Identify the components of lifelong partnerships.
  - Discuss the aspects of love and its varying stages.
  - Analyze the implications of divorce, re-marriage, and blended families on developing children, adolescents, and adults.
  - Examine the dynamics of aging, dying, and death.

Preparations: Materials will be provided by the Professor in class and via email; no prerequisites required
