

HANYANG UNIVERSITY

2019 HISS Syllabus (Project Management)

Professor: **Kang, Chang Wook**
E-mail: cwkang57@hanyang.ac.kr
Home Univ.: Hanyang University
Dept.: Department of Industrial and Management Engineering

Description: Successful delivery of projects is required by organizations of all sizes and in all sectors for their long-term benefit. Project management is understood as essential for delivering successful projects. The course includes subjects and processes involved in project management. Subjects are integration, stakeholder, scope, resource, time, cost, risk, quality, procurement, and communication. Processes are initiation, planning, implementation, control, and closing. In this course, students will learn the basics of project management and develop individual competence for the profession of project management.

Objective: The objectives of this course are three:
1. Project management knowledge development
2. Project management skills development
3. Project management abilities development

Preparations: Lecture notes will be provided. Pre-knowledge is not needed. Download IPMA ICB 4.0 at <http://products.ipma.world/>
